

3rd Iberian Meeting on CMP and CCT

June, 16th- 17th 2022

MADRID

Grupo de
Cardio RM
y Cardio TC

GEONIMITY Grupo de Estudos de Cardiologia
Imagem e Hemodinamica Invasiva
e TC Coronaria
Sociedade Portuguesa de CARDIOLOGIA

Thursday, June 16th

- 14:45 **Welcome and Opening of the Meeting**
- 15:00 - 16:30 **How and why to do using CMR and CCT (30' each)**
- Strain imaging (both)
 - ECV and mapping (both)
 - Stress imaging (both)
- 16:30 - 18:00 **When CVI is focused on EP (30' each)**
- Echo, CT or MR: which is the most valuable technique prior to AF ablation?
 - Is mandatory to perform a cardiac-MR before ventricular tachycardia ablation?
 - What about cardiac resynchronization therapy?
- 18:00 - 18:30 **Coffee break**
- 18:30 - 20:00 **10-top imaging cases contest (5' presentation + 4' Q&A/each)**
- 20:30 **Dinner**

Friday, June 17th

- 09:00 - 11:00 **Myocardial diseases (20' each)**
- Cardiac amyloidosis – neither a rare disease nor a death sentence anymore! How can imaging be used to improve patient care?
 - Fabry's disease – whom, when, how and why to do CMR? The need of a change in treatment paradigm?
 - Prognostic relevance of LGE - new evidences and recommendations on HCM and DCM
 - Myocarditis in COVID-19 (and vaccines): something new and to be aware, or just the "other side of the same coin"?
 - Cardiovascular benefit of SGLT2 inhibitors – can CMR help to unveil its mechanisms?
- 11:00 - 11:30 **Coffee break**

**Friday, June 17th**

- 11:30 - 13:00** **Ischemic Heart Disease** (20' each)
- Is CCTA ready for the prime time in all-comers?
 - Where are ischemia tests after the ISCHEMIA trial?
 - High-risk asymptomatic patients, should we move to CCTA over CCS?
 - Functional assessment of coronary artery disease by CT: FFR-CT, CTP or both?
- 13:00 - 13:30** **Conference: Imaging pulmonary hypertension: focus on prognosis**
- 13:30 - 14:00** **Commercial stands & presentations**
- 14:00 - 15:00** **Lunch break**
- 15:00 - 15:30** **Conference: Fully automated cardiac-MRI assessment based on artificial intelligence. Are human readers old fashioned?**
- 15:30 - 17:00** **Valvular Heart Disease** (20' each)
- CT and MR position on the American and European VHD Guidelines
 - Bicuspid aortopathy: new insight from 4Dflow-MRI
 - CT for TAVI: from basics to advanced analysis
 - Advanced pre-procedural planning on TMVI
- 17:30 - 19:00** **CCC: Portugal vs. Spain** (12 cases) (7' each)
- 19:00** **The best-cases awards**
Closing remarks

3rd **Iberian Meeting** on CMR and CCT

June, 16th- 17th 2022
